

1. Are meaningful for you and align your learning goals with your team.

2. Develop systems thinking skills to help you see how several things fit together, & understand causes hard to see without data & modeling resources.

3. Make VA data, initiatives, and standards transparent to you.

4. Empower you to realize ongoing improvements in team quality of care & work life.

## How to Use Our Team Naming Convention

- Convention:

1. Health Care System - 3 digits (numeric)

2. Location Code - 2 digits (alpha numeric)

3. Location Acronym - 3 digits (alpha)

4. Team Name
- Use for:

• Bookmarks for Clinic Selections

• Clinic Selection exports

• Team world names and team data files on mtl.how/sim

## How to Export Clinic Selections and Team Flow Selections

1. Click on the "View Clinic Selections" tab in the Data UI.

2. Hover over the "Clinic Selections" table until you see the 3 dots.

3. Click on the 3 dots and click "Export data".

4. Keep the default selections as is and click "Export".

5. Save and name the file using our Team Naming Convention and post the export for the team in their MS Teams Channel.

## How to Grant Access for Row-Level Permission Error

A Row-Level Permission Error looks like this:

The report can't be viewed because the underlying dataset uses row-level security (RLS). [Show details](#)

Filter by Division Name

Other Filters

Select Clinics to Generate Report Data

1. To resolve this error, go to mtl.how/data\_prod\_workspace if you are in PROD or mtl.how/data\_test\_workspace if you are in TEST.

2. Click on the 3 dots next to the Data UI dataset (orange icon) of the VISN that the user is from and click on "Security".

	Name	Type
	DataUI - VISN 21	Report
	DataUI - VISN 21	Dataset
	DataUI - VISN 22	Report

3. Enter the Learner's email address and click "Save".
